School Gardens  ENGAGING OUR CHILDREN  WORKSHOP

Tuesday 5th August

Join us and find out how ORDINARY schools and early years centres can bring about EXTRAORDINARY change by involving their students and communities in the development of their gardens and open spaces.

Learn how to create whole school sustainability landscape plans, beautiful spaces and gardens, student garden programs, gardening support and resources available for schools and links to curriculum deliverables.

Student leadership, life skills, collaboration!

Be inspired by Basil Natoli, teacher and horticulturist Victorian Schools Garden Awards (VSGA), Richard Bellemo of RB Landscapes, and gardeners, staff and students from St Louis de Montfort’s Primary School.

Explore propagation, edible gardens, indigenous gardens, water filtering systems, animal husbandry, fruit trees, composting and worm farms, landscaping and aquaponics.

This session is brought to you by:

Victorian School Garden Awards
in partnership with
St Louis de Montfort’s Primary School & Kingston City Council.

DETAILS

St Louis de Montfort’s Primary School
37 Dolphin St, Aspendale 3195
parking available on site

9.15am to 3.30pm
